# SMELL Smell

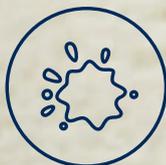

Bio-enzymatic  
Technology

No urine  
smell

Fresh  
litter box

No stains

Fragrant  
laundry

# How to take care of a home with pets? It's simple!

We all love animals and strive to ensure their maximum comfort. Unfortunately, we often face unpleasant surprises, such as dirt and unpleasant urine, or secretion smells common among both young and older animals. Fortunately, there are effective ways to prevent this and maintain cleanliness and freshness in our surroundings.

**Mr. Smell** is a series of bio-enzymatic products that effectively:

- ✓ **Solve the problem** – remove unpleasant urine smell and animal dirt
- ✓ **Make life easier** – provide quick help with pet “accidents”
- ✓ **Care for your pet's well-being** – the subtle lavender scent has a soothing effect on pets

# What makes Mr. Smell products so effective?

## BIO-ENZYMATIC TECHNOLOGY!

**Eliminates unpleasant smells** – enzymes break down nitrogen compounds found in urine such as urea, uric acid, and ammonia. Thus, Mr. Smell does not mask unpleasant smells but eliminates them at the source.

**Effectively removes stains and dirt (both fresh and dried)** – enzymes in our washing liquids penetrate and break down hard-to-remove animal dirt.

**Safe for fabrics** – the action of enzymes is gentle, so fabrics retain their freshness, colour, and structural durability.

**Versatility of action** – enzymes are exceptionally effective in removing animal dirt, urine, and faecal stains from various surfaces, such as floors, sofas, and carpets.

**Environmentally friendly** – enzymes are biodegradable, that helps to reduce the negative impact on the natural environment.

## SPRAYS FOR ELIMINATING URINE SMELL

- ✓ FOR HARD AND SOFT SURFACES (floors, furniture, carpets, textiles)
- ✓ BIO-ENZYMATIC TECHNOLOGY EFFECTIVELY REMOVES URINE SMELL
- ✓ CITRUS SCENT
- ✓ SAFE FOR HUMANS AND ANIMALS
- ✓ THREE TYPES OF SPRAYS ADAPTED TO SPECIFIC ANIMAL SPECIES — DOG, CAT, RABBIT AND RODENT

**Instructions for use:** Remove the visible impurities. Spray thoroughly the place which smells badly. Wait until it is dry. Repeat if needed. If in doubt as to whether the product can be applied to a given surface, test it on a small and not very visible part of the surface.

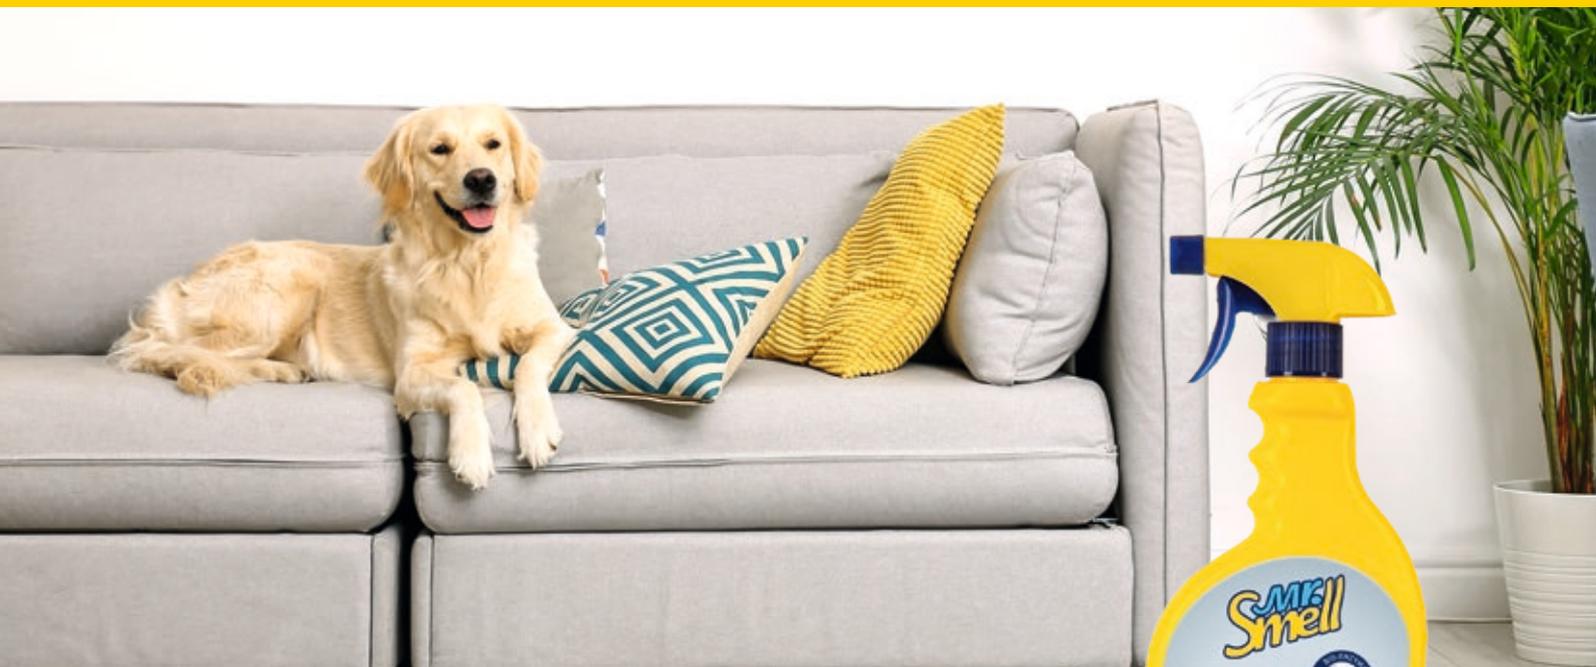

DOG URINE ODOR REMOVER, 500 ml  
CAT URINE ODOR REMOVER, 500 ml  
RABBIT & RODENT URINE ODOR REMOVER, 500 ml

### CITRUS SCENT ACTS AS A REPELLENT

Citrus-scented substances are perceived by pets as very unpleasant. This ensures that sprayed surfaces are no longer an object of interest for the animal and may discourage it from relieving itself in that spot again.

# Unpleasant surprises on the couch?

## STAIN REMOVAL SPRAY FOR FABRICS

- ✓ FOR UPHOLSTERED FURNITURE, CARPETS AND OTHER SOFT SURFACES
- ✓ BIO-ENZYMATIC TECHNOLOGY EFFECTIVELY REMOVES URINE, FECES AND VOMIT STAINS (both fresh and dried stains)
- ✓ WITH QUICK-WASH FUNCTION
- ✓ CITRUS SCENT
- ✓ SAFE FOR HUMANS AND ANIMALS

**Instruction for use:** Remove the visible impurities. Spray thoroughly the place, paying attention to well cover the borders of the stain. Leave for several minutes and wipe with a damp cloth or sponge in order to remove the remaining impurities. Repeat when needed. When it comes to the old stains, leave the product for few hours and cover the place with a foil to protect it from drying. If in doubt as to whether the product can be applied to a given surface, test it on a small and not very visible part of the surface.

SOFA & CAPRET STAIN REMOVER, 500 ml

# Unpleasant smells from cages and litter boxes?

## DISINFECTION SPRAY FOR LITTER BOXES AND CAGES

- ✓ DISINFECTS LITTER BOXES, CAGES, TRANSPORTERS, FLOORS, TOILETS AND NON-FOOD CONTACT COUNTERTOPS
